

TUPI TOUR PRESENTS

Amazon Expedition

Motor Yacht Tucano · Manaus, Brazil · 2026–2027

Deep in the UNESCO Central Amazon Conservation Complex — the largest protected rainforest on Earth — the Motor Yacht Tucano takes small groups of up to 16 travelers farther into true wilderness than any other expedition vessel. This is not a scenic cruise. It is an active, immersive expedition with 3–5 daily excursions into the forest by foot, electric launch and kayak.

Expert bilingual naturalist guides accompany every excursion. Expect howler monkeys, pink river dolphins, caimans, sloths, 60–90 species of birds per voyage, and the magnificent Encontro das Águas — where the black Rio Negro meets the brown Amazon River in a miles-long border that the two rivers refuse to cross.

Way off the grid. The M/Y Tucano explores areas so remote, other vessels are rarely seen. **Small groups.** 12–16 travelers on board; 6–8 per excursion. **Active.** 3–5 excursions every single day. **Sustainable.** Electric launch motors, solar power hours, zero-waste policy.
