

TUPI TOUR PRESENTS

Lençóis Maranhenses

Barreirinhas, Maranhão, Brazil · Exclusive Riverside Resort

The Lençóis Maranhenses is one of the most surreal landscapes on Earth — a vast national park of white sand dunes stretching for 1,500 km², interrupted by hundreds of crystal-clear blue and green lagoons that form during the rainy season. There is nowhere else like it on the planet.

Our base is an exclusive resort on the banks of the Rio Preguiças — the only resort in the region with direct river frontage, set on 200,000 m² of preserved green area just 2km from the town of Barreirinhas. The architecture integrates seamlessly with the Maranhão landscape: lush tropical gardens, a signature sand-bottom pool, and private chalets with hammock verandas and queen or king beds.

Only resort on the Rio Preguiças. Direct river access, guided kayak and boat excursions. **200,000 m² of green space.** Tropical gardens, sand-bottom pool, Olympic pool, wet bar. **Full wellness.** Spa, sauna, fitness center, tennis and beach tennis courts. **UN Bright Green Book.** Recognized among 500 global sustainability pioneers.

BEST TIME TO VISIT

The lagoons are fullest and most spectacular between June and September, when the contrast between the white dunes and the blue water is at its most dramatic. This is peak season. From October to May the lagoons gradually dry — some remain, but the full spectacle requires the wet season fill. Tupi Tour can advise on the best dates for your travel window.
